CONDE Mc GINLEY

(Continued from Page 3, Column 1)

we see no necessity to argue the matter for ever. The real need is for strong and decisive action NOW! Drive the Marxist money-changers from the Temples of our National culture, from the money market place, from the publishing business, from the mass media, from the centers of political power. Conde Mc Ginley believed in fighting to win, not merely in fighting to keep the battle going forever.

COMMON SENSE is indeed not a "nice" Conservative Paper, like Billy Buckley's NATIONAL REVIEW. We are not quite as "Nice" as AMERICAN OPINION, either; although we are happy to note that AMERICAN OPINION has been a little less "Nice" and a little more outspoken in the last few issues. COMMON SENSE was founded by a rough rider from the Indian Territory. We are still "Rough Riders" here, and we do not mind playing unholy havoc with the "Sacred Myths" which the Jews have spent untold millions of dollars to create. We have no patience with the myth that Marxism represents "The Poor" or "The Working Class," when the plainly obvious fact is that it represents the financial oligarchy which is under the control and leadership of the Jews. Conde McGinley was among the first to warn Organized Labor against Communist machinations in the Unions.

Conde McGinley was not the kind of "Conservative" who was concerned solely with the protection of financial interests. McGinley was interested in protecting and improving the QUALITY of American life. He wanted to save and defend the best traditions of the old America, the pre-hippie America of Courage, Faith, and Honor, the America which believed in itself and its mission in the world. The Jews have fought to destroy the quality of American life, to degrade the American culture, to reduce the "Goy" masses to cultural impotence so that "Jewish Supremacy" would be a fact of American life.

What has happened to America under "Jewish Supremacy"? Domestic order has collapsed; our business blocks burn while Policemen stand helplessly by, under order not to interfere. The balance of World Power has turned against us. Our currency is shaky and we are in danger of economic collapse. We have engaged in "no win" wars, and, by doing so, have lost the respect of a world which is beginning to wonder if it shouldn't join with Russia in order to be on the winning side. To top it off, the Jews also have failed to win their own objectives. Their Republic of Israel is in dire danger. The Jews are in danger in every country where they live in any considerable numbers. They simply have not mastered the art of living successfully with other people. The fact of life which the Jew chiefly needs to learn is that being a footpad is a dangerous occupation. You may indeed succeed in robbing other people, and in getting rich, and in becoming powerful; but in doing so by the usual Jewish methods, you also generate hostility; you loose dogs of fear, envy, hatred, and revenge. This is what the Jews are doing on a vast scale around the world today. We have no doubt that the Jewish chickens will come home to roost. The Jews try, by means of their intellectual charlatanry, to channelize hostilities against them into futile channels; to create class division among the Goyim; to avoid, like the intellectual con men and quacks that they are, the natural and ultimately inevitable consequences of their actions.

We do not fear the "Successful" Jew. We fear the FAILING Jew, the Jew whose nefarious schemes must ultimately result in disaster to himself and to those involved with him. Conde Mc Ginley did not want America to become deeply involved in Jewish schemes. He foresaw clearly that Jewish rule would lead America to ultimate ruin. It seems to us, frankly, that anyone who cannot see this today certainly must be at least half blind.

Conde McGinley saw the danger toward which America was heading. He saw it with crystal clarity and he devoted his life and his personal fortune to the Fight for America. The fact that this developed largely into a fight against the Jews is almost incidental. Conde McGinley was not merely an "Againster." He was above all else, a man with a burning love for the Old America. Conde McGinley would have fought against ANYBODY who threatened that noble patriotic tradition. Conde McGinley was FOR something, not merely against something. He fought for the America which MIGHT HAVE BEEN, if we had not surrendered ourselves so ignobly to the cultural domination of the Jews. He fought for the character, courage, faith, and honor which developed in the kerosene-lit farmhouse of yesteryear, and which might have been carried forward to have made a Nation moving forward in orderly progress, instead of the hate-torn, fear-ridden nation which we are today, dangerously threatened by collapse at home and enemies abroad.

Now, Mr. American, you have tasted the lash of Jewish rule. How do you like it? How do you like the riots? How do you like having your store burned? How do you like having the streets of your big cities turned into a virtual battleground by the criminal element every night? How do you like being a weakling nation, treated with contempt around the world? How do you like the prospect of a collapse of the Dollar?

DON'T YOU WISH YOU HAD LISTENED TO CONDE McGINLEY WHEN HE TRIED TO WARN YOU MANY YEARS AGO?

Gun Control Will Be Final Move

(Continued from Page 1, Column 2)

Christians will have to protect themselves with broomsticks.

Does anyone in his right mind believe that a government that hasn't lifted a finger to deter the criminal, that would tolerate gangs of organized Black Militant murderers within the shadow of the Justice Dept., that would send its own boys to needless slaughter in Vietnam with guns that wouldn't shoot, that would fatten up the enemy with our pork and wheat, to make them huskier and stronger, the better to kill more Americans . . . that that government is worried about people being killed by guns?

No normal patriotic citizen would oppose any genuine move to keep firearms from criminals, incompetents and the like. This would be a legitimate and understandable safeguard of life and limb. Perhaps, some of the advocates of the proposed legislation are sincere in their efforts and believe the situation calls for legislation. Those that live with this conspiracy see a different picture entirely. The Invisible Government, which is obeyed by our elected "representatives" almost to a man, is capitalizing on a set of circumstances it may very well have helped to create. We believe that behind all this hysteria is a carefully laid plan that will ultimately deliver the guns of every American to the enemy. The implementation of Public Law No. 7277 has all but disarmed us as a nation. All that is left is to disarm us individually and the setting will be complete for the takeover. The planners have already disarmed us as a nation "legally." Why give them the opportunity to disarm us individually by letting Congress pass this vicious gun control legislation?

Oppose this alleged gun control legislation. Write your representatives and state legislators. Work, fight and demonstrate against it!

Robert Kennedy Died for Israel

(Continued from Page 1, Column 3)

ROBERT F. KENNEDY, recently assassinated Senator from New York, victim of the causes he espoused and the treason he promoted.

of an "oppression" and "injustice" unparalleled in the history of human cruelty; a policy of planned genocide conceived and carried out by that implacable enemy of all humanity—The Jew.

The assassin is a Christian Arab who carries with him childhood recollections of friends and family butchered by Israeli criminals. For the past twenty years Israel has systematically liquidated thousands of Arabs, both Moslem and Christian, sparing neither infants nor old people without a whisper of protest from that mob of moral capons, the liberal, humanitarian "intelligentsia." But let one filthy Yiddish pornographer or money speculator be arrested in some obscure Polish or Russian village and instantly a "cause celebre" of international proportions is raised. The Arab people once looked to America for succor. We remained deaf to their cries. All of this burned into the soul of Sirhan. It twisted his mind and armed his hand for vengeance. Kennedy as the politician most friendly to Israel was the logical target, and Sirhan killed him openly and without remorse. For this he will perish in the gas chamber, and rightly so. The abdication of conscience to political mysticism is the shortest path to dehumanization. It places one in the same moral context as the Jew and solves nothing. Sirhan's act actually strengthened the Zionist cause. He no doubt considers himself a martyr for his native land and will go to his death firm in that belief. But the Kennedys do not have even the consolation of a mistaken patriotism; their Robert died, alas, not for America, but for Israel.

On the horizon however one sees strange shapes forming, vague murmurings, certain deeply felt historical currents are flowing. Long ago in the mists of antiquity, Israel declared war on humanity. In the not too distant future, I prophesy, humanity fed up with murder, filth and the perversion of everything sacred, shall declare war on Israel.
